Thanks, Lily!

This is super helpful. I had gotten snippets of info in the Region's weekly reports (like the protest) but your background puts everything into perspective.

Good luck with the meetings.

Dianna

Dear Dianna,

Since John is out of the office at an all-day meeting, I am responding. Yes, 4/12 and 4/21 are separate meetings. 4/12 is a technical meeting at the EPA office with a half a dozen local activists in person and several others on the phone. I will separately forward to you an email from Bradley Angel, the head of the Greenaction nonprofit group, that describes the meeting and that attaches R9's response to the most recent questions. 4/21 is an evening community meeting. I will also send you the agenda, which just came out a few days ago. The Navy and the State Department of Toxic Substances Control will attend both meetings. The Navy is the lead presenter. The Navy's Radiation Affairs Support Office (RASO) will have representation at both meetings. EPA will be available at both meetings for questions specific to our oversight role.

As further background, Greenaction received a \$20,000 grant from the State of California EPA's Environmental Justice program to launch a Bayview Hunters Point EJ Task Force last July. This is the latest of several similar task forces through the state in which regulators collaborate with community members to address community concerns in a local area (e.g. Fresno, Imperial Valley). EPA R9 routinely participates in all the Task Forces along with our regulatory partners and contributes funding and technical assistance as appropriate. This Bayview/Hunters Point Task Force meets monthly to address rotating topics of interest to community members. The Hunters Point Naval Shipyard was the focus topic of the January, 2016, evening community meeting, where I presented about overall cleanup status, leaving waste in place under a cap, the remedy for the landfill area (Parcel E-2), sea level rise, and future development plans. In addition, the group led a protest march January 28 in front of the sales office of the Shipyard's developer (Lennar Urban Corporation) and at EPA R9 office, half a block away. Our RA Jared Blumenfeld and Superfund Division Director Enrique Manzanilla came outside to talk with the protesters at their invitation about their concerns. One of the requests at the protest was to organize the meeting that is now taking place April 12.

In John's absence, feel free to call me if you want to talk about any more details. Thanks!

Lily

Lily and John,

I've been asked to put something in our Hot Sites report for the AA on the HP rad issue. I got earlier emails from Stuart Walker and he said you guys had a prep call Monday.

In one email, it talks about a 4/12 meeting and in the next paragraph it says the EJ task force meeting is April 21. Can you confirm if this is the same meeting or two, and which is the right date.

Since HP is a federal facility, I'm expected to track it. Can you please add me to your distribution list?

Thanks
Dianna

Stuart Walker forwarded them to me, which I appreciate. Can you copy me on future messages so I can get the information directly? Thanks!

Dianna
